

## 3D Auto Stereoscopic and Computer Animated Content by Tiny Island Productions and CG Protégé Animation School on Display at the *PIXAR 20 years of Animation* Exhibition

**1<sup>st</sup> April, 2010** – Exciting new 3-D auto-stereoscopic content featuring a patented glasses-free 3-D technology will be on display as part of the world-renowned 'Pixar: 20 Years of Animation' exhibition held from 2 April 2010 to 27 June 2010 at the Singapore Science Centre. The 3-D autostereoscopic content, created by Singapore-based computer animation production studio Tiny Island Productions in partnership with Alioscopy Singapore, a provider of glasses-free 3-D solutions, features digitally-projected images floating out of the screen that are highly visually captive.

In its partnership with Alioscopy Singapore, Tiny Island Productions produces 3-D autostereoscopic content for Alioscopy's 3-D displays. Tiny Island Productions is also partnering training institution CG Protege Pte. Ltd. to provide training to potential content creators for Alioscopy's 3-D displays. Specialized training will be made available to advanced level trainees at the institution who are interested in creating content for Alioscopy's 3-D displays. Other computer animated film and television productions and projects by both Tiny Island Productions and CG Protege Pte. Ltd. will also be on display during the 12-week long exhibition. Exhibits include movie and series trailers, character maquettes, designs and artwork.

**About Tiny Island Productions (Pte. Ltd.)**

Tiny Island Productions is a production and producing/consultancy company that creates, manages and markets quality content for the global CG animation market. Established in 2002 and based in cosmopolitan Singapore, the management, creative team and panel of advisers are experienced in spearheading productions from conceptualization to final production across multi-platforms. The company has worked with UK distributor Entertainment Rights/Classic Media and Thai-based producing company Shellhut Entertainment on a CG animated television series, Shelldon, that has been aired on NBC USA and France 5. The company had also earlier inked a development deal with Los-Angeles based Saban Entertainment Group (SEG), with SEG providing development resources for a CG animated series.

**About CG Protege Pte. Ltd.**

CG Protege is a quality provider of accredited training programmes recognised by the Workforce Development Agency of Singapore. Training is administered by Tiny Island Productions and a team of industry veterans and trainers who have a successful track record in grooming and preparing artists to join the pool of production-ready talents. Past trainees have found positions working on television and film projects for both local and international animation and visual effects studios, including Double Negative Visual Effects (UK & Singapore), Weta Productions (New Zealand), SAMG Studios (Korea), Polygon Studios (Japan), Lucasfilm Animation (Singapore), Big Communications, Scrawl Studios, Lights & Shadows, Mikoishi Studios, Real U Singapore, Sparky Animation and ST Electronics (Digital Media).
